Content Migration Update

Layout Builder: The Story So Far

Dec '22   Mar '23   Jun '23   Sep '23   Dec '23

V1 - Prototype

Proof of concept, introduced Landing Page with Layout Builder and basic components necessary for a one-off landing page.

V2 - Expansion

Doubled the number of components available, expanded beyond the Landing Page to Branches. Began laying groundwork for customization.

V3 - Iteration

Redesigned all components with a cohesive, brand-compliant design system and basic customization. Further content type additions and editor experience updates.
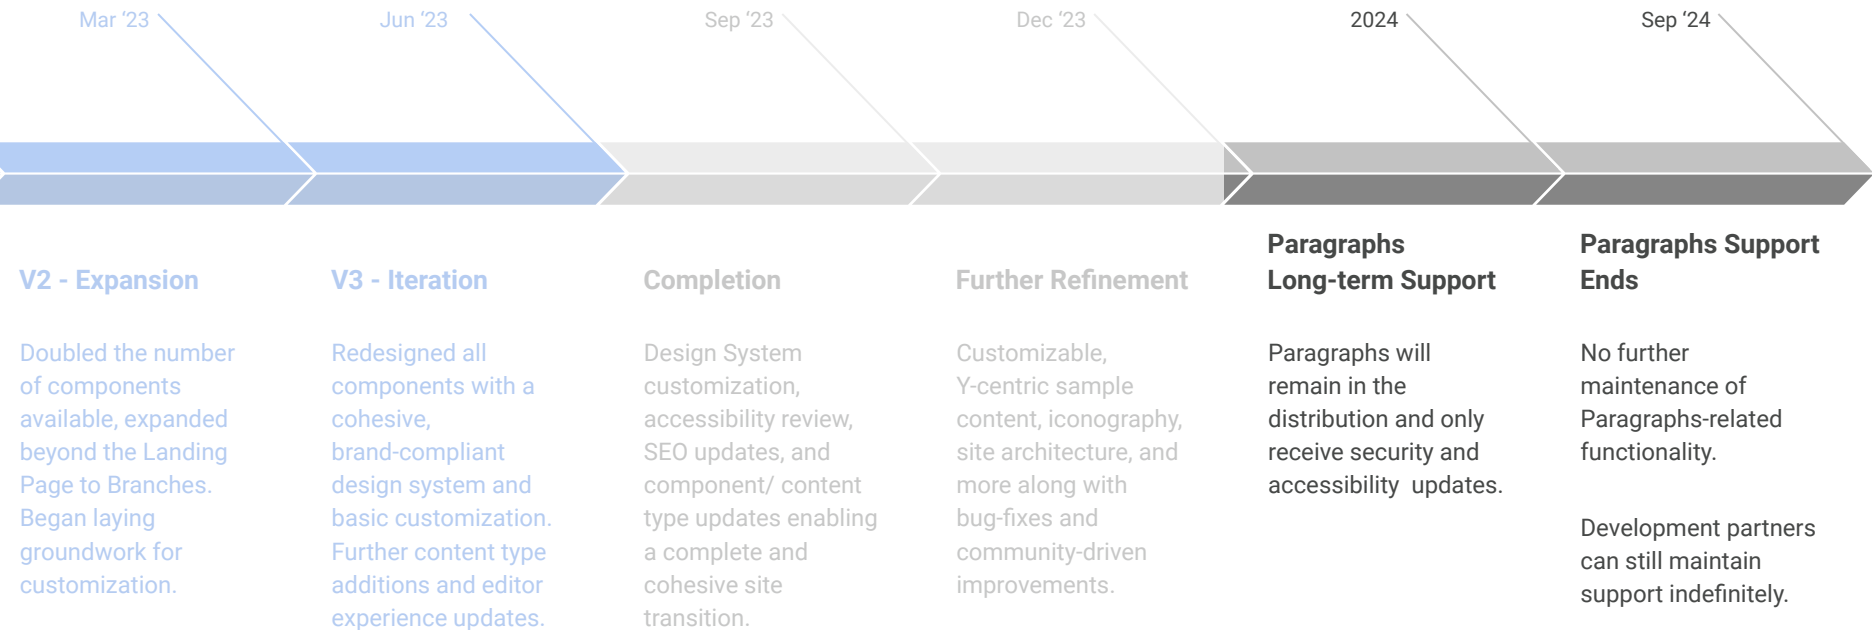

Completion

Design System customization, accessibility review, SEO updates, and component/ content type updates enabling a complete and cohesive site transition.
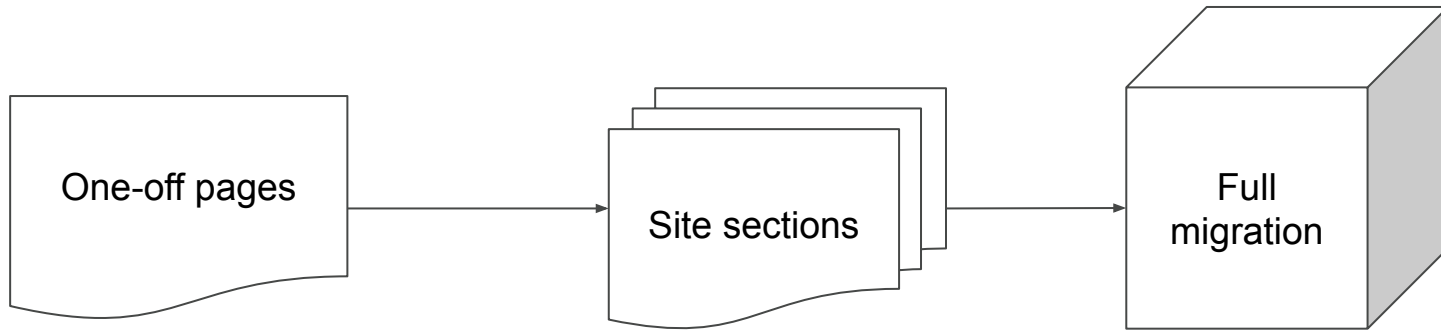

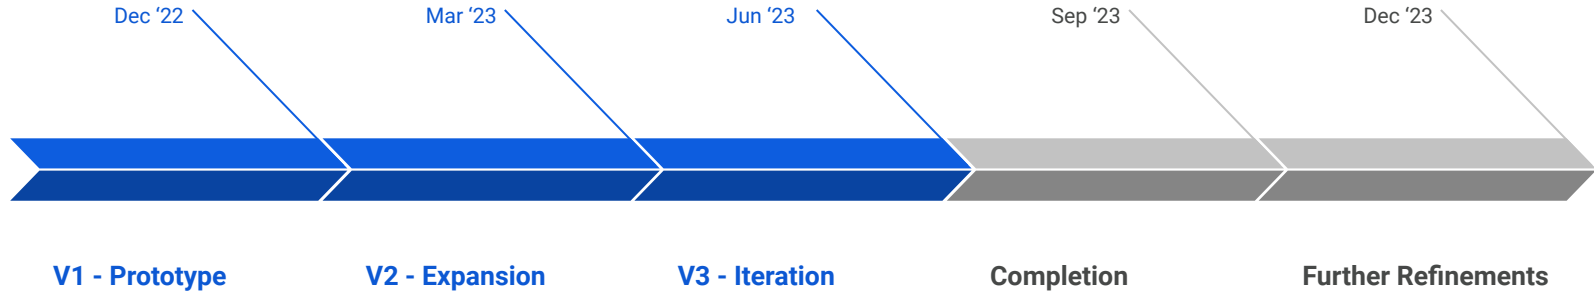

Further Refinement

Customizable, Y-centric sample content, iconography, site architecture, and more along with bug-fixes and community-driven improvements.

CKEditor 5

CKEditor 5 Update

Cleaner UI

Dedicated Media and Link toolbars

Easier table building, autoformatting, transformations, and more!

CKEditor 5 - What you need to know

June release - on **CKEditor 4** - nothing changed for Content Editors just yet

CKEditor 5 - all plugins are ready in development branch, team is working on Upgrade Path and documentation

Drupal 10 can work with CKEditor 4, even after EOL (End of Life) - no security issues for the distribution, because we are not allowing anonymous users using it.

We are going to release CKEditor 5 in next release.
